Hospital Peer Review 2001 Index

Case management
Conference targets quality, cost in case management, FEB:27

Clinical advances
Beta blocker reduces risk of second heart attack, JUN:87
Cost-effective antibiotic could shorten LOS, APR:58
Drug dissolves clots in catheters, MAY:72
Follow-up care reduces costs in high-risk infants, APR:60
Gold standard for COPD released, JUN:86
Pfizer partners to market COPD treatment, JUN:87
Seniors with mild ischemia at risk for cardiac health, MAR:42

Compliance issues
Study focuses on measuring compliance, effectiveness, JUL:94

Confidentiality
How to apply Y2K lessons to confidentiality, APR:55
JCAHO gears up for patient confidentiality, MAR:32

Credentialing
Arkansas state licensing agency offers verification, AUG:107
HHS database is risky source for crendentialing, FEB:21

Data management
Present comparative data effectively, MAR:34

Data review
JCAHO's data-driven agenda, JAN:5

Disease management
NCQA releases draft for DM accreditation, SEP:130

Equipment errors
Equipment-related errors in the workplace, APR:56

HIPAA
JCAHO preparing a model 'business associate agreement,' DEC:172

ISO 9000
New guideline represents process-oriented approach, FEB:17

Joint Commission
Face several key challenges, JUN:76
How to conduct a mock survey, NOV:154
Improve survey success with documentation review, JAN:4
Last-minute survey preparation can help, JAN:1
Major review of JCAHO requirements could bring welcome changes, JUL:89
Mock surveys help prepare for the real thing, NOV:153
President outlines top strategic priorities, JUN:73
Renaming two accreditation categories, NOV:156
Some providers unsure if task force will make a difference, JUL:91
Standards Review Task Force is making progress, NOV:155
Task force will study every chapter in manual, JUL:92
Top 10 trouble spots for 1999, JAN:3
Turns focus to continuum of care, JUN:77

Management
Hone your project management skills, JUL:101
Organization key to good project management, SEP:121
Plan and execute your projects more effectively, AUG:113

National Practitioner Data Bank
Don't rely too much on data bank as source for credentialing info, AUG:105
Previous research casts doubt on value of NPDB, AUG:108
Query fees increasing, NOV:155

Orion Project
Proves fruitful 'lab' for JCAHO, JAN:15

ORYX data
Core measurement data requirements vary among five sets, OCT: 135
Critics say JCAHO implementing ORYX too fast, OCT:136
Oryx data collection will be difficult and labor intensive, OCT:133

Pain management standard
Patients should receive pain management info, AUG:111

Patient safety
Evidence-based practices outlined for patient safety, SEP:128
Hospital halts research after volunteer's death, SEP:132
JCAHO alert on infusion pumps raises concern, FEB:26
JCAHO issues warning on kernicterus danger, JUL:100
New JCAHO standards require

integrated patient safety program, MAR:29
Patient safety management profile under fire from critics, OCT: 137
Standards released for protecting humans in research projects, DEC:173
Time for a revolution in patient safety culture, JUN:85

Peer review
New program helps rehabilitate problem physicians, SEP:117
Physicians tested, observed, re-educated, SEP:120
Remedial program good for those who can improve, SEP:119

Performance improvement
Baldridge Award program gains favor with hospitals, MAY:63
Bolster quality efforts by developing effective PI infrastructure, APR:45
Learn how to measure PI across departments, APR:47
'No secrets, no excuses' policy improves performance, MAY:61

Performance measures
Depend on effective use of good data, JAN:13
Evidence-based measures designed for diabetes care, JUL:93
Improve performance in trauma care, MAY:68
Occurrence screens and performance measures for trauma services, MAY:70
Use XmR charts to better understand performance, FEB:23

Physician support
Winning physician support for quality initiatives, MAR:40

Privacy
Final rules create more questions, FEB:20

Quality improvement
Aerospace engineering model identifies risks, JUN:78
Cardiology terms and guidelines developed to improve quality of care, OCT: 143
Diabetes guidelines call for more aggressive treatment and earlier screening, OCT:143
Evaluating QI efforts throuch collection tools, JAN:11
IOM looks at quality, APR:49
IOM's 10 rules for improving quality, APR:50
Leapfrog Group asks hospitals to report on quality, SEP:128
Project targets medical waste left on trays, AUG:109
Two studies confirm value of quality improvement, AUG:112

Records
Medicare computer records can be hacked, JUL:100

Sentinel events
Reporting sentinel events to managed care organizations, DEC:171

Serious reportable events
State systems for 'serious reportable events' will require reporting, DEC:161
Twenty-seven 'serious reportable events' are divided into six categories, DEC:164
